

**IMPORT PERMIT**

The Molecular Biology & Genetic (MBG) of CENTRAL VETERINARY RESEARCH LABORATORY - Dubai is authorized to import animal samples for treatment purposes

**Conditions:**

1. The samples must be transported in leak proof container consist of two layers and must be packed in such a way to minimize the risk of breakage and the package must contain sufficient absorbent material to contain any accidental leak. Any leakage of material out with the package must be reported to Ministry of Environment & Water (MEW).
2. The package must be labeled with a label stating (samples for testing-imported under UAE- MBG permit no MBG-1/2008). It must be addressed to MBG Lab, CVRL, P.O. Box 597, Dubai, UAE- Tel. 0097143372529- Fax. 0097143372769 - Email [info@mbg.ae](mailto:info@mbg.ae)
3. Package must be sent so as to arrive in a working day and the laboratory must be notified between 24-48 hours prior to shipment that the samples are being sent. CVRL must maintain records of such notification.
4. Package must be sent by a recognized courier and must be taken directly from the point of entry to the laboratory. It is the responsibility of the MBG to check that notified samples have arrived and if they have not arrived within 72 hours to recheck with the sender that samples were/ were not dispatched ,and if they were, to liaise with the courier company to ascertain where the samples are.
5. Whilst held at MBG, all samples must be handled and stored in such a way to prevent the risk of potential infection to any person or animal. All the related containers must be destroyed or thoroughly cleansed and disinfected in a way that will eliminate any possibility of spreading any potential infection.
6. The sample will be processed at MBG without coming into contact with any animal in UAE and securely exported with the same conditions mentioned above applied to the material and the package.
7. A record of the number of the samples, animal identification and date of receipt must be kept for at least 12 months.
